

Autism Services of the Finger Lakes at happiness HOUSE

To: Respite Providers and
Family members of Children with Autism

From: Harlene Gilbert, Director Autism Services of the Finger Lakes at Happiness House

RE: FREE AUTISM TRAINING
Happiness House

Happiness House has a grant from the New York State Office of People with Developmental Disabilities Family Partnership. This grant allows us to offer seven free trainings for Respite Workers who serve persons with autism. We would like to encourage agencies to send their respite staff to these trainings. In addition, families may ask anyone who provides respite and/or child care for their family member with autism to attend. Those who attend will receive a certificate of participation.

In addition to respite workers, family members of persons with autism are welcome to attend as well. Please refer to the attached flyer for more information.

If you have any questions or concerns please feel free to contact me at (315) 789.6828.

Autism Services of the Finger Lakes

at happiness HOUSE
