September 15, 2021

Dear Parent/Guardian:

We have gotten off to a strong start here at Salem Elementary School. Our students seem to be transitioning well going back to the full week routines and following protocols to help keep them healthy and safe. Our next big event is our **Parent Information Night.**

Typically this would be held in the evening with parents meeting your child's teacher to learn about the structure of the classroom, what your child's day looks like and to get an understanding of what they will be learning for the school year.

In an attempt to continue to keep everyone safe and healthy, we have decided to not hold Parent Information Night as an in person event. Instead, we will be doing what we did last year and your child's teacher will be sharing a video/powerpoint with you to help answer any questions you might have about the upcoming school year.

Your child's teacher will be reaching out to you with information about how to access the video/powerpoint and when you will have access. If you are unable to access the information and/or would like to speak with your child's teacher directly, please reach out to them to make an appointment.

As always, if you have any questions, please feel free to reach out to your child's teacher or my office at 518-854-9505.

Thank you,

*Karen Vieira*
